## Ike: U.S. School Aid May Be Necessary

### White House Education Meet Opens

WASHINGTON (AP)—President Eisenhower said Monday night the federal government will have to step in if necessary to prevent "a lack of schools in certain important areas."

He cautioned, however, that "if we depend too much... on the federal government, we will lose independence and initiative."

The President's remarks were sound-filmed at his Gettysburg, Pa., office for presentation at the White House conference on education, which opened Monday night with the issue of federal school aid pushing to the fore.

Reviewing the lead-up to the conference, Eisenhower said:

"In the last 10 years our population has increased by 26 million souls. During that increase a similar increase in the number of schoolrooms and qualified teachers available for teaching our young has not come about."

"There are many conflicting opinions as to how to provide these things."

"But there are two points, I think, on which we all agree."

"The first thing is that the education of our young should be free. It should be under the control of the family and locality. It should not be controlled by any central authority."

"At the same time, we know that everybody must have a good education if they are to properly discharge their functions as citizens of America."

This, Eisenhower said, was "the heart of this whole problem."

"We want good facilities on the one hand, and we know there are many areas in which people cannot afford to build the schools."

He spoke of the dilemma in which many educators find themselves today.

"If we depend too much on outside help, too much on the federal government, we will lose independence and initiative. But if the federal government doesn't step in with leadership and with providing credit and money where necessary, there will be a lack of schools in certain important areas. And this cannot be allowed."

The persistent question of federal aid to schools threatened to dominate the session despite other plans by the conference leadership.

Several state delegations arrived for the four-day conference bearing the recommendations of preliminary state conferences regarding federal aid. Some were for and some were against it.

And the 100 delegates representing organized labor have been instructed by a joint CIO-AFL-Railroad Union committee to keep close touch on federal aid sentiment among the nearly 2,000 conference participants.

### IOWA FARMER GETS WEIGHT IN SILVER DOLLARS—2.976 OF 'EM

CHICAGO (AP)—Brinks, Inc. guards, armed with tear gas guns, watched Myron A. Hoff, a retired Iowa farmer get weighed today in a Chicago hotel ballroom.

The men from Brinks were there because the 56-year-old, 186-pound Hoff was worth his weight in silver dollars—2.976 of them.

Hoff, assistant manager of a farmer cooperative in Mondamin, Iowa, was awarded his weight in dollars as first prize among feed dealers in a nation-wide cattle judging contest.

"My problem now is how to haul the silver dollars back to Iowa," Hoff said.

Hoff and the 17 other finalists were chosen on the basis of their skill in judging photographs of three classes of animals.

As Hoff stood on one scale, a pretty model in a harem costume shoveled the silver dollars on to a balancing scale.

### MILTON BERLE HOSPITALIZED

HOLLYWOOD (AP)—Comedian Milton Berle was hospitalized Monday suffering from what his physician described as "extreme physical exhaustion."

Berle, 47, will not appear on his NBC color television show Tuesday night. A network spokesman said Jan. Murray is flying from New York to take over for him. Comedian Ben Blue also will appear on the show.

Comedian Eddie Cantor, who was to have been Berle's guest star Tuesday, was stricken with a kidney ailment last week.

NBC said a filmed skit with Berle, Tallulah Bankhead and Frank Sinatra was being scheduled in place of the Cantor appearance.

MURDER VICTIM — Eight-year-old Janice May, above, died in the hospital shortly after she was found unconscious near her Canton, Ill., home. Police said the child had been criminally assaulted and are concentrating their search for a young man seen near the home about the time of the attack. The child was found by her brothers when she failed to join them at a school playground near the home.

## Seek Cab Driver As Suspect In Canton Girl's Rape - Slaying

CANTON, Ill. (AP) — The brutal rape-slaying of little Janice May, 8, remained unsolved Monday night as plans were completed for her funeral Tuesday.

The girl, apparently seized as she walked from her Canton home to a school playground four blocks away Saturday afternoon, was found battered and dying between rows of upended mine cars beside a railroad. She died two hours after her two brothers were led to her by their dog.

Police Chief Kenneth Lindzey said he pinned his hopes for solving the case chiefly upon finding a missing cab driver, Lloyd Miller, 29, who left town early Sunday, taking one of his employers' taxicabs.

Lindzey said the principal reason Miller was sought for questioning was the time and circumstances of his departure. Miller was charged with grand larceny after the abandoned cab was recovered Sunday near Pekin, 30 miles east of Canton, where it had been abandoned.

Janice, a third grade pupil at the Anderson public school, will be buried Tuesday from the Canton Baptist Church where she attended Sunday school.

An inquest, opened into her death by Dr. Raymond J. Mercey, Fulton County coroner, Sunday, was in recess indefinitely pending the outcome of police and sheriff's office investigations.

Renewed questioning of the child's playmates and residents of the neighborhood turned up no leads.

THREE CHILDREN BURN TO DEATH

KANSAS CITY, Kan. (AP)—Three small children were burned to death Monday in a fire that destroyed their home while their mother was visiting a relative.

The victims were Russell, 3, Donna Sue, 1½, and Christine, 7 months, children of Mr. and Mrs. Edward J. Ramirez.

## Farm 'Cost - Price Squeeze' To Continue In '56: Waugh

WASHINGTON (AP)—An Agriculture Department economist said Monday the current economic squeeze on the nation's farmers is likely to get a little tighter next year.

In a report to the department's annual farm outlook conference, Frederick V. Waugh, department director of economics, made this forecast:

"Looking ahead to 1956, we again expect business conditions to be very good. We again expect agricultural prices and income to lag behind. In other words, we expect the farm 'cost-price squeeze' to continue in 1956."

This "squeeze" likely will be marked, Waugh said, by some further drop in farm income but little if any drop in farm production costs.

Farm prices have already dropped more than 25 per cent below postwar peaks, while farm production costs have declined very little from the same peaks.

The result has been a reduction in net farm income—the amount left after paying production costs—from a peak of \$17,191,000,000 in 1947 to an estimated \$10,600,000,000 this year.

Waugh's forecast was given at the opening session of the outlook conference, attended by more than 400 Extension Service economists from the various states and by department officials.

The conference is designed to acquaint the state economists with the department's views on economic trends affecting farmers.

Waugh said that in making his forecast of somewhat harder times for farmers he took into consideration the possibility that Congress may modify present farm programs.

Both Secretary of Agriculture Benson and members of Congress—Democrats as well as Republicans—have promised "improvements." Democratic critics of the Eisenhower administration's farm programs expect agricultural problems to be a major issue in next year's national elections.

Waugh said he doubted that any legislation passed by Congress at the coming session would affect the 1956 outlook "very decisively."

## Please Be Careful! Thursday National Safe Driving Day

WASHINGTON (AP)—All over the world this fact must be faced: Few weapons are more dangerous than an automobile when it's loaded with a careless driver.

To dramatize this point, the President's Committee for Traffic Safety has set aside this Thursday as S-D Day, National Safe Driving Day. It wants everyone to be especially careful and not get himself killed Thursday, to show what can be done when safety is practiced by everyone.

The committee is stressing such gloomy points as:

1. Last year 26,000 persons were killed in traffic accidents in this country. If we keep our present bad habits, more will die this year.

2. Every 25 seconds someone is hurt in an auto accident.

3. The cost is staggering—\$4,400,000,000 each year in medical bills and property losses.

The automobile was invented in this country, and here it has got in its most destructive blows. But wherever the wreck occurs, safety experts agree on this: The chances are that a little more care and consideration for the other fellow could have prevented it. Otherwise, there would be no point in an S-D Day.

In stressing safe driving the importance of safe walking often is forgotten. Yet in the larger cities more than half the fatalities are walkers.

So far as the American Automobile Assn. can determine, the first fatality by auto was a pedestrian. In September of 1889, H. H. Bliss was killed as he stepped off a New York street car platform.

## Perfect Circle, Union Heads Reach Agreement Monday

CHICAGO (AP)—Agreement aimed at ending the bitter, violent four-month strike of CIO United Auto Workers at the New Castle, Ind., plant of Perfect Circle Corp. was reached Monday after a month of mediation.

The settlement proposal will be submitted to 229 UAW employees in New Castle Tuesday at 9 a.m. Ratification by the members of UAW Local 370 would bring the dispute to a close.

Federal mediators and union officials declined details of the settlement proposal, but a company statement said it called for a two-year contract ending July 1, 1957, embodying a 10-cents-an-hour wage increase which the company put into effect last July, and an additional increase of seven cents an hour, effective July 1 next year.

A compromise was reached, the company said, on the touchy issue of what will be done about 35 strikers discharged by the company for alleged illegal acts during the strike.

The company agreed to reinstate 20 of the employees immediately, 8 others after a 30-day suspension, and the remaining 7 cases are to be submitted to arbitration.

William B. Prosser, general manager of the piston ring firm, said that if the agreement is ratified, the union members will be taken back beginning immediately at the New Castle foundry.

## Last Of 5 Girls, Causing Matron's Death, Gives Up

AKRON, Ohio (AP)—Shivering and coatless, the last of five teenage girls involved in an escape which resulted in the death of an elderly matron at the Summit County Detention Home surrendered Monday night, less than 100 yards from the home.

Mrs. Zella De Cost, 16, wife of a convict who escaped last week from a West Virginia Prison, walked up to George H. Fasy, a county courthouse maintenance employee, and told him her name.

Fasy took her to the county jail. Other details were not immediately available.

Two other girl fugitives surrendered to police earlier Monday, and two were captured.

Mrs. Eula Bonham, 59, who was to have been married next Thursday for the second time, died of strangulation after the five girls left her lying on a dormitory floor, tightly bound.

The girls had used the belts of their cotton dresses to tie her up. Then they had stuffed into her mouth a rag soaked in ammonia, which they had saved from their cleaning chores. By the time another attendant had reached her she was dead.

Asst. County Prosecutor James Barbut said first degree murder indictments would be sought. For such a conviction, the penalty would be death, unless a jury recommended mercy, in which case the sentence would be life imprisonment—with parole possible after 20 years.

## WARDS TO SPLIT COMMON STOCK

CHICAGO (AP)—Directors of Montgomery Ward and Co. Monday voted to split the company's common stock on a two-for-one basis.

Directors also raised the common stock quarterly dividend to \$1.00 a share from 75 cents a share and voted a year-end extra dividend of \$1.25 a share. Both dividends will be paid Jan. 14 to stockholders of record Dec. 8.

Stockholders at the regular annual meeting April 27 will be asked to approve the common stock split and increase authorized common shares from 10 to 20 million.

At present Ward's has 6,502,378 shares of no par common outstanding.

## PRISONER AT STATEVILLE HANGS HIMSELF WITH JACKET

JOLIET, Ill. (AP)—A prisoner in an isolation cell at Stateville Penitentiary used his jacket as a noose to hang himself, Monday, the warden's office reported.

He was Peter Ziemba, 35, sentenced to a 3 to 15-year term in July 1952 for a Cook County robbery.

Prison official said Ziemba was placed in isolation Saturday as punishment for a rule infraction. He was alive when a guard checked the cell at 2:25 p.m. Monday.

## E. Berlin Held Americans At Gunpoint: US Protests

### Pearson Warned Canada Not Exempt In Event Of War

OTTAWA (AP)—Foreign Secretary Lester B. Pearson said he was told by Soviet Communist Party Secretary Nikita Khrushchev that, in event of a new world war, Canada would have no geographical immunity from attack.

Pearson made the statement Sunday night in a radio broadcast on the Canadian Broadcasting Co.'s special speakers' series. A text was read Monday by his department.

The minister, who visited Russia in early October and conferred with Premier Nikita Khrushchev, said:

"They (the Russians) are not unaware I may say, of our strategic location as their neighbors across the pole."

"Mr. Khrushchev, for instance, averred that if there were ever another world war, Canada would have no geographical immunity from attack. He thought that this should make us all more anxious to be on good terms with both our neighbors."

"I replied that we were well aware of our strategic position and also of the fact that we could never feel really secure if either of our two neighbors were hostile to us—or to each other."

Pearson said there is a "great gap of ignorance and misunderstanding" which divides the Communist world from the West.

"This ignorance and misunderstanding is not, of course, all on one side. But on their side it is colossal; almost pathetic, and certainly dangerous."

## Larry Lewis Wins \$300 Scholarship At 4-H Congress

CHICAGO (AP)—Larry Lewis of U.S. Adams County Ill. Monday was named winner of a \$300 scholarship at the National 4-H Club Congress for his practical work in the 4-H Club's field crops program.

The 17-year-old Lewis has been in 4-H work eight years. He specialized in field crops for five years, devoting 149 acres to oats, soybeans, wheat, corn and legumes.

When he entered the five-acre extra yield corn project, he nearly doubled his yield, won top Adams County honors and received "A" ratings in the state. He has three champion, four reserve champion and seven blue ribbons on soybeans, oats and corn from the county grain show.

Lewis has two blue ribbons on soybeans from the state grain show and sixth place on oats from the International Grain Show.

Lewis is a high school junior. After finishing college he plans to enter the certified seed business.

An Elgin, Ill., lad was one of a dozen national \$300 scholarship winners in the tractor maintenance awards program. He is 19-year-old Eugene Schick, who has been in 4-H work seven years.

In 1953 Schick attended four tractor schools and was in on a "trouble shooting" demonstration. He also entered county tractor rodeos, placing third once and second twice. He received the American Farmer Degree at the Future Farmers of American Convention this year.

## A-Sub Exceeds Expectations

GROTON, Conn. (AP)—Navy Secretary Charles S. Thomas stepped off the atomic submarine Nautilus Monday and said "it has exceeded our expectations."

Thomas, together with Atomic Energy Commission Chairman Lewis L. Strauss and top Navy brass, had just completed a 21-hour cruise in the world's first nuclear submarine. Thomas said that on the trip the submarine had executed "advance underwater maneuvers" in Long Island Sound.

The secretary said the Nautilus "is the start of the transition of the Navy from steam to nuclear power."

During the time the officials were on board, the Nautilus completed 2,200 hours under nuclear power, 1,100 hours of them submerged, said Thomas.

The Nautilus first moved under nuclear power Jan. 17, 1955.

## Lewis Calls For Crackdown On Misuse Of Welfare Funds

WASHINGTON (AP)—John L. Lewis, move later that Inciso be cited for contempt of Congress.

The senators seek an explanation of how the health and accident insurance program works in Inciso's Chicago Local No. 286 of the AFL United Auto Workers. This is different from the CIO Auto Workers Union.

No precise explanation has been given of why the union collects \$6.15 a month per employee from employers but devotes only \$5.15 a month on insurance protection for the workers.

Lewis, whose own union operates a welfare fund spending about 115 million dollars annually for the benefit of miners and their dependents, told the subcommittee he couldn't suggest any new laws.

He went on to say there are plenty of existing federal and state laws regulating trusts and the handling of funds so that anyone misappropriating such money can be prosecuted.

Lewis' testimony marked his first public appearance since he covered from a recent mild heart attack.

Douglas (D-Ill.) said he would

## Leonard Hall Predicts Ike Will Run If Able

GETTYSBURG, Pa. (AP)—Republican National Chairman Leonard W. Hall came out of a 45-minute political huddle with President Eisenhower Monday with the prediction Eisenhower will run "if he feels he is able."

Hall gave that to newsmen as his personal opinion.

He said he and Eisenhower didn't discuss the President's second term plans as a specific situation, but Hall reported he felt "very much encouraged" and would continue making campaign plans on the prospect that Eisenhower will run again for President in 1956.

"I feel better about it after the meeting this morning," Hall said. And he said he felt more optimistic about the chances of Eisenhower running than he did when they last met in Denver two weeks before Eisenhower's Sept. 24 heart attack.

"Insofar as I am concerned," the GOP leader said, "there is no other candidate."

Hall said it was his personal opinion that Eisenhower's decision will be based on the findings of his physicians when he undergoes what Hall called a "final examination" at the end of January.

Hall reported the President told him he was "feeling good."

On his own, Hall said: "He looks a million per cent, and I have never seen him looking better."

His conference, to which Hall drove from Washington, took place in Eisenhower's offices in the Post Office building.

Hall was peppered with questions. Among the first:

"Did you ask him if he was going to run?"

"No," Hall replied. "Of course, all of you know that the question of the final examination—the physical examination some time at the end of January must be had, and naturally I wouldn't ask that question at this time."

He added:

"I think he will. The question is whether or not he would be a candidate. My answer would be—this is my personal opinion—I think he will, if he feels he is able."

While Hall said the president had not told him what to tell reporters, Hall conferred before and after his meeting with Eisenhower with James C. Hagerty, the President's news secretary.

Reporters sought to pin Hall down on the reason for his optimism, particularly on what Eisenhower told him.

## Argentina To Give La Prensa Back To Former Editor

BUENOS AIRES (AP)—Government House sources said Monday night President Pedro Aramburu's government is issuing a decree, probably Tuesday, returning La Prensa to Dr. Alberto Gainza Paz, its former editor and publisher.

This action, they said, will be based on the grounds that seizure of the big independent newspaper by the Peron regime four years ago was unconstitutional. The decree already has been prepared.

Aramburu told a news conference his government "has resolved the situation of the newspaper La Prensa." Without going into detail, he pledged the "outrage against this great newspaper will be righted."

The President clearly referred to the 1951 expropriation of La Prensa by Juan D. Peron's government. Gainza Paz was forced to flee into exile after his paper was seized.

Aramburu did not say outright La Prensa would be returned, but he told newsmen assembled for the conference in the pink Government House:

"The government has resolved the situation of La Prensa. With this, it (the government) does nothing more than repair the outrage committed against this great newspaper. Details will be given out in a decree."

Although the session was called a news conference, no questions from newsmen were permitted.

## Threatens Western Rights

BERLIN (AP)—Two U.S. congressmen and the wife of one were held at gunpoint in East Berlin Sunday in an incident threatening all Western rights in the Soviet sector of the still-occupied city.

The implications of the treatment of the American party, escorted by U.S. Army men, were so serious that Maj. Gen. Charles L. Dasher Jr., U.S. commandant in Berlin, and five advisers worked all afternoon on the draft of a protest to the Russians.

It was not delivered, however, because Dasher still was dissatisfied with its tone and content. Work will be resumed Tuesday and Dasher personally will deliver the protest.

The general's advisers said two issues are at stake: The right of Americans to visit East Berlin without being molested and whether an official U.S. Army vehicle equipped with two-way radio can be subjected to East German Communist police patrols.

U.S. officials fear all Allied rights in the four-power city's Soviet zone are in jeopardy.

The incident occurred Sunday shortly before noon when Reps. Harold C. Ostertag (R-N.Y.) and his wife, and Edward P. Boland (D-Mass.) visited the Soviet Memorial Cemetery in an Army car with an Army officer escort.

Communist police detained the party, declaring the laws of the East German republic against two-way radio in foreign cars had been violated. The Russian deputy commandant, Col. I. A. Kotsibua, supported the German Communist view but released the group after four hours.

U.S. officials reasoned that custom as well as agreements long in use distinguish the Soviet sector of Berlin from the regulations of the East German Republic as far as Allied personnel are concerned. If this has been changed, they said, the entire character of the four-power city could undergo far-reaching change too.

The Americans were detained at pistol point and for 24 hours were held in a guard shack under the surveillance of a Communist police tommygunner.

Ostertag said "we were not bodily harmed in any way."

The congressional party used an Army sedan of a type that is equipped with radio telephone so that the occupants are constantly in touch with West Berlin headquarters. The U.S. Military Mission at Potsdam, created by mutual agreement which grants the Soviets a mission in West Germany, uses this type of radio communication and has never been challenged.

Russian backing for the German Communist police action disturbed the U.S. headquarters, authorities said, because it could mean a new set of rules for the Allies in quartered Berlin. The protest of Dasher, it was understood, is being framed to explore this point particularly.

LaSalle ..... 10.9 fall 0.1  
Peoria ..... 11.5 fall 0.1  
Havana ..... 6.3 —  
Beardstown ..... 10.0 fall 0.1

## Editorial Comment

### NO TIME TO CUT AID

It is disconcerting news that the administration may have decided to hold back perhaps 20 per cent of foreign aid funds already appropriated by Congress. This suggests that we are not taking seriously enough the recent moves in Russia's economic warfare.

The West is thoroughly aware that Soviet operatives are busy in Afghanistan, insinuating themselves by assisting that backward land to make economic improvements.

It surely knows that Russian leaders Bulganin and Khrushchev have not gone to India and other Asian countries for a vacation tour. They want to play the helpful big brother to India as well—for obvious reasons.

These actions are part of a developing pattern. The Soviet Union is trying to thrust southward across the Himalayan ramparts into the heart of southern Asia. It is not cracking the frontier with guns but with engineers and others who come as "friends."

The Russians understand that a free India pulling up out of the mire of poverty without Communist assistance will be a showcase for democracy and a striking offset to India's Asiatic rival, Red China. India is still the great uncommitted land of Asia, the last big battleground of ideologies on that continent.

In the face of this evident strategy, the United States is now reported ready to cut aid funds to India from 50 million to 40 million dollars. The saving this will represent to us is very minor. The damage it will do to the cause of freedom in India could be very large.

As a matter of fact, at this very time India is said to be eager to sound out U. S. leaders on the matter of a huge \$1,500,000,000 loan needed to advance its second five-year plan.

That is a very big sum and chances of India getting it seem slim. Just the same it is no time to cut funds, either.

We are in a war and Russia is moving aggressively. If we do not act on a scale befitting the size and scope of the struggle, we may see India and other Asiatic soil drawn closer to the Soviet Union.

### Communication

Chapin, Ill.  
Nov. 25, 1955  
Jacksonville Journal Courier  
Jacksonville, Ill.

To The Editor:

It has come to the attention of the below named organization, that on Monday, Nov. 21, 1955 at 7:30 a.m. an automobile accident occurred just East of the Village of Chapin on State Highway No. 104. Two out of state women were injured in the accident.

A nearby resident telephoned the Chapin telephone operator and asked her to request an ambulance be sent to the scene from Jacksonville. The Chapin operator immediately placed a call to Jacksonville. The operator was notified that, unless a Police Officer made the request, the ambulance could not be dispatched to the accident scene. As a result these two badly injured women remained at the scene of the accident for 55 minutes or until a State Policeman

arrived and he in turn called the ambulance. We feel that this is an unreasonable delay especially in this case where one of the injured women was thrown on the ground and could not be moved except on a stretcher. If there is a state law which forbids anyone but a Police Officer to call an ambulance to an accident scene, we believe such a law should be either repealed or amended to prevent future incidents as described above.

We are also of the opinion that the best interests of Morgan county could be better served if our county organized a "County Ambulance Service" supported by taxation and available 24 hours a day. Such a service might be connected to the Morgan County Sheriff's office where radio communication is maintained as well as the availability of manpower to man such an ambulance in emergencies. ### MEN ARE DEADLY

RICHMOND, Va. (AP)—Insurance underwriters disagree with Kipling's famous line. They think the male driver under 25 is more deadly than the female—especially if he is unmarried.

Proposals for revised liability insurance rates, filed with the state, ask increases up to 43.6 per cent for unmarried male drivers under 25. Such drivers who are married would get off lighter and girls in the same age bracket—married or unmarried—would get a decrease.

The annual wood crop of the United States would ring the earth 379 times with a one-inch board a foot wide.

## Boyle's Column

By HAL BOYLE

NEW YORK (AP)—John Huston, a zestful fellow who plays at his work and works at his play, believes he would live longer if he had 20 million dollars.

The lanky film director, who recently completed a four million dollar version of Herman Melville's whaling classic, "Moby Dick," said he wouldn't quit movie making even if a leprechaun suddenly showered 20 million on him—an amount Huston feels would enable a man to live graciously.

"I wouldn't retire yet," he remarked. "I look on making pictures as play. To me it's fun."

"My real occupation in life is fox hunting—and shooting."

"But with 20 million I'd find time to do more of the things I haven't got around to. I shot a tiger this year, but I'd like to go back to India and spear a wild boar from horseback. I haven't done that yet."

Here is how Huston, a man who loves simple elegance, would live if he had that 20 million:

"I'd have a castle in Ireland and be a master of hounds in some Irish hunt. It's a paying job, but you do the paying yourself."

"I'd have a shooting box in Austria, a salmon stream in Scotland, a stud farm in Kentucky, a racing stable in France."

"I'd have my own DC3 plane, so I could fly to India, Africa or Alaska, according to the season or my inclination."

"I'd continue living in Ireland, as I do now, because it's a convenient place for one who likes to push around the parade ground of the world. I'd buy better paintings than I can afford now—a Rembrandt or two, a few Goyas, and some Piero Della Francesca."

"I'd have a half dozen wives. One in Madrid, certainly, one in New York, and several apartments in Paris. No, I wouldn't bother to have a house in Hollywood. I'd stay with friends there."

It would be a merry, merry life, and—in Huston's view at least—a long one.

"I'd never know a moment of boredom," he said. "Life is far too short to become boring. My life span would probably be lengthened. It's only trying to make 20 million that cuts short a man's years, spending it would be healthy."

Huston may never achieve 20 million in the bank, but he does have a way of making his dream come true.

His latest picture—the 14th of his career—is an example. At the age of 21 he read and was deeply stirred by Melville's tale of the mystic white whale. He decided some day he would film it.

Twenty-eight years later he has achieved the goal. He had earlier hoped to make the film with his father, the late Walter Huston.

"After my father's death," he recalled, "I put away the idea and thought I would never come back to it. But I did. I worked three times as long on it as I did on any other picture, and I think even the college professors will agree I stuck close to the spirit of Melville."

Gregory Peck is starred as Ahab, but some 20 artificial whales played the role of Moby Dick, the white whale Ahab pursued.

"They ranged in size from 6 to 120 feet," said Huston. "Some were hydraulic controlled, some had pneumatic controls, some had electronic controls."

"Some worked marvelously well out of water but were no good in water. Some were almost complete failures. But they all served a purpose. It was a terrific technical problem."

Two of the gigantic home-made monsters—each costing about \$20,000—broke their hawsers at sea and never were found. Presumably they are somewhere wallowing beneath the ocean waves, frightening the innocent denizens of the depths.

Anyone who finds either of the whales presumably is welcome to it. Huston is done with whales for this lifetime.

GETTYSBURG, Pa. (NEA)—State police guarding Ike's farm airport to see the President caught a man climbing through the fence where the prize Black Angus were grazing. When they questioned him he blamed it all on his wife.

He said she had egged him on to sneak in, touch one of Ike's bulls and use that as the reason for getting on the TV show called "I've Got A Secret."

They were willing to let him touch one of the bulls after the explanation, but he said he had changed his mind.

Cab Drivers here, same as all over the world, take their politics seriously. The one that met movie-TV actor Robert Montgomery at the airport the other morning demanded some basic changes in American foreign policy.

"Now you tell the President that we've got to slap down the Russians harder than we have," he kept insisting.

Montgomery promised to take it up through the proper channels.

Robert Montgomery is TV adviser to the President and flew in from New York to help set up a studio for some film-TV reports Ike will make soon. His presence has caused a sensation second only to Ike's being here. Kids swarm around him for autographs. Waitresses get tongue-tied when he sits at their tables. Shoppers ogle him in the streets.

He takes it all in stride. Works like a beaver with the TV cameramen and technicians making sure lights and mikes are just right. Jokes with reporters. Appears to really know the TV production business.

It's A Small-Bore mystery exactly where and how the grocery shopping is done for the Eisenhowers. Previously Mammie would drop in on the big Acme supermarket downtown and pick up what she needed. But the manager of the store, Chuck Neibert, insists he doesn't know if the Eisenhowers are his customers now, or not.

A clerk volunteers the hunch that a Secret Service man comes in every other day and does all the food buying.

All things come to an end and the good or bad end depends on you.

We always feel sorry for the fellow with a heart of gold, if his relatives find out about it.

Lucky the man who counts his blessings as he looks over a flock of fine youngsters.

Some cars run 20 miles to the gallon of gas and others 80 miles to the pint of liquor.

A doctor says numerous neck aches are traceable to the mouth. Keep your mouth shut or you may get it in the neck.

Visitors Who Fly Into the local culture to do something about the situation.

It Passed practically unnoticed but young, tempestuous Pennsylvania Governor George M. Leader did not take part in the brief welcoming ceremony for the Eisenhowers. Regardless of political affiliation it's customary for the governor of a state to welcome the President of the U. S. aboard on such an occasion. Especially since Leader has a farm of his own not far from here.

Apparent reason for Leader's absence is the fact that the White House is still scorched. Or Leader's saying that the GOP had "underworld" links in a speech in California in September. Pennsylvania Republicans refer to Leader as "a short-pants political upstart."

Every Women's sewing circle, bridge club and ladies' auxiliary in town is dying to invite Mammie for a tea or luncheon. But strict word has come out of the White House: no more than anything like this is forbidden, for many weeks at least.

Doctors are still worried about the First Lady's condition and check her as regularly as Ike. In spite of the smiling, confident appearance she made on TV during Ike's arrival in Washington the report was that she was very tired and far from being in robust health.

Expense Of Setting Up the White House press room in what used to be a combination town hall and gymnasium is being taken care of by Henry Scharf, manager of the Gettysburg Hotel. The room is a part of the hotel.

Henry is going to turn it into a ballroom when the press is through with it. That's the way he's writing off the cost.

Gettysburg will be a good rest cure for the reporters who covered Ike through the Denver stay. There were plenty of night life attractions in Denver. But there are only eight movies here.

Closest night club to town is in Hanover, Pa., about 15 miles away.

Ike's Neighbors on adjoining farms have been complaining bitterly about low beef prices. They hope that when he finds out about it from the man who runs his farm, Ivan Feaster, that the President will ask his secretary of agriculture to do something about the situation.

## Manners Make Friends

In writing a thank-you note whether for a gift, a favor or for hospitality, promptness is important. The promptness with which you write lends your words of thanks a warmth that is hard to achieve in a letter you have put off writing for a long time.

Don't send "cold gratitude."

### Pork Is the Economy Meat For Month of December

BY GAYNOR MADDOX  
NEA Food and Markets Editor

Pork is No. 1 on the December hit parade of plentiful foods. The 1955 production will be about 11 billion pounds, a billion pounds more than last year.

The turkey crop may be the second largest on record. The 1955 total production is expected to reach 63 million birds.

Broiler and fryer production in December will run about 14 per cent higher than the same month last year.

Beef production will continue high. A higher percentage of cattle is on feed this year, and top quality beef will be ample and should be lower in price.

Here is the complete list of foods expected to be plentiful nationally during December, prepared by the United States Department of Agriculture.

Pork, turkeys, broilers and fryers, beef, potatoes, sweet potatoes, grapefruit, cranberries, grapes, winter pears, dates, lard, vegetable fats

and oils, dairy products and canned Tuna.

Baked Pears (Allow one large or two small pear halves per serving with meal)

To bake 3 large or 6 small Anjou or Bosc pears, cut the pears in halves, and remove the cores. In a covered baking dish place the juice of 4 lemons and enough water to cover the bottom of the dish. Place the pear halves cut side down on the dish and bake covered at 375 degrees F. (moderate oven) for 20 to 25 minutes, depending on the ripeness of the fruit. Then remove the cover, turn the pears and sprinkle each half with 1 to 2 teaspoons sugar. Return to the oven to glaze and complete the baking. Serve hot or chilled.

TOMORROW'S DINNER: Broiled chicken, parsley potatoes, corn and green pepper pudding, soft rolls, butter or margarine, molded cranberry and orange salad, grapes and pears, cheese and crackers, coffee, tea, milk

### ★ DR. JORDAN SAYS ★

### Children in Some Danger Of Inheriting Diabetes

BY EDWIN P. JORDAN, M.D.  
Written for NEA Service

Most difficult to answer is a question often received by this writer on what the chances are of a child with one or more parents with diabetes developing the same disease. As one lady wrote, "My husband has been taking insulin for many years. We have a two year old son who seems perfectly normal. Will he have diabetes too?"

The question is whether diabetes should be considered an inherited disease.

Perhaps the best way to reply to this is to say that it is considered an hereditary disease but certainly not all children of parents with diabetes develop it. Furthermore, only about one quarter of those who develop diabetes can dig up a family history of the disease.

OUR PRESENT KNOWLEDGE of the way in which diabetes is carried suggests that on the average only about one child in four would have diabetes if one parent has the disease and the other is not carrying any tendency in that direction. If both parents have diabetes one might expect all the children to have it also, though it does not always turn out this way.

There are other things besides heredity which enter into the development of diabetes. The condition comes from a disorder of certain cells in a small gland lying inside the abdomen known as the pancreas. This in turn is affected by other internal glands such as the pituitary, the adrenals and the thyroid.

PARTICULARLY IMPORTANT from the practical standpoint is the knowledge that overweight greatly increases the chances of developing diabetes.

In one series of diabetic patients more than three quarters were definitely overweight and only eight in one hundred were below normal weight. Just exactly why this occurs is still obscure but possibly a person that is already susceptible to diabetes cannot stand the extra strain of fat and the pancreatic cells break down more easily under such circumstances.

ANOTHER FACTOR which has to do with the development of diabetes is so-called "nerve strain." The frequency of the disease is highest among persons who are under tension in their work but perhaps this factor in the development of diabetes is overshadowed by the fact that most such people tend to overweight and come from sedentary walks of life.

Certainly, a child who has parents or close relatives with diabetes should be watched particularly carefully, and parents should see to it that

that the youngster does not put on too much weight. Except for such reasonable precautions it hardly seems necessary to become too concerned about the risk of developing the disease.

## A Glance Into The Past

10 YEARS AGO Because of a shortage of electrical equipment because of the war Jacksonville streets were not decorated for the Christmas season.

Mr. Richard Lee of Scottville was injured in an automobile accident near Jacksonville.

Carl Horn of Jacksonville, Route 6, injured his hand when he caught it in a corn picker.

Greene county 4-H clubs held an Achievement Day at Carrollton.

Mr. and Mrs. Frank A. Dolan of Winchester celebrated their 50th wedding anniversary.

A cold wave and snow storm swept across the country.

Cattle sold for from \$15 to \$66 a head and hogs brought \$3 to \$25 a head at the Horace Massey sale south of Jacksonville.

Sheriff Kenneth Woods served a turkey dinner to prisoners in the Morgan county jail on Thanksgiving Day.

A J. Ferguson purchased the grocery business of J. F. Purvis at 519 South Main street.

Lloyd Reid accepted a position with Phelps & Osborne's store as salesman and window dresser.

George R. Corcoran, who had been traveling with Forepaugh-Sells Brothers circus, returned to his home in Jacksonville for the winter.

S. B. Roach, postmaster at Mason City was in Jacksonville to participate in the DOKK ceremonies.

### There's No Doubt About It, The Daughters Know More

"Do you know as much as your daughter?" was the provocative question asked of over 1500 delegates to a recent National Triennial Conference of Camp Fire Girls.

I put that question to myself, just for fun, and I have to admit that I'm not nearly as smart as my daughter, 14, or any of her friends.

I couldn't, for the life of me, predict with certainty what the top tune will be on this week's Hit Parade—but they can hit it right on the platter, week after week.

I don't know how Eddie Fisher and Debbie Reynolds are getting along now that they are married—but I'm sure my daughter does. (I'll even have to check with her before I finish this column to be sure they ARE married.)

Every time my daughter gets a "No" answer when she asks to go some place I know she is going to say, "But EVERYONE is going, just EVERYONE." But am I smart enough to have a different answer every time? No, indeed. I always fall back on the same old worn response: "I don't care what EVERYONE is doing."

CAN'T TALK HER OUT OF ANYTHING Another sign that she is smarter than I am is that my daughter can talk me into things but I can't talk her out of anything, but have to rely on the parental prerogative of putting my foot down.

A 15-minute telephone conversation seems long to me, but my daughter and her contemporaries can talk to any other teen-ager for 45 minutes at a stretch without even needing a speaker's sip of water.

Our daughters mastered the art of gracefully wearing four crinolines at once with no trouble at all—a feat members of my generation wouldn't even attempt.

Of course, our daughters are smarter than we are. It even keeps us jumping to keep them from finding out.

## Garden Club Workshop Results In Fine Display

The Morgan County Garden club had a full day at the Youth Center with a workshop in the morning and a business session in the afternoon.

At this workshop "arrangements" in dry materials, fresh flowers and fruits were made and placed on display at the afternoon meeting. Many beautiful pieces were viewed by club members which were all more or less suitable for this season of the year and for the Christmas season.

Those with arrangements on display were: Mrs. Rex Ranson, Mrs. Lucille Walters, Mrs. Vernon Scholfield, Mrs. Ann Knowles, Mrs. E. W. Logue, Mrs. John Boddy, Mrs. F. J. Munman, Mrs. Virgil Coughlan and Mrs. Eugene Hopper. The flowers arranged by Mrs. Boddy were from a table decorated with at her recent 50th wedding anniversary.

The business session was called to order by the president, Mrs. Vernon Scholfield who asked Mrs. W. N. Harness to read the club prayer, followed by a moment of silent prayer in memory of the late Mrs. Carl Gordon who was a member of the club. The secretary, Mrs. Gladys Howard, read the minutes and correspondence of interest to the club. Miss Haigh made a report on the treasury. Mrs. Anna Mahn announced that Mrs. Mary Burke Lowry would be the next speaker for the club on W.L.D.S. the first Saturday in December, being the 3rd, from 8:55 to 10 a.m. her topic will be Poinsettias and Christmas Trees.

The president then asked each member of the club to bring a donation of non-perishable food preferably canned goods, to the December 3rd meeting. This food will be distributed to needy families during the Christmas holidays. New members introduced were: Mrs. Ruth Robinson, Mrs. Frank Flynn, Mrs. Fred Maltby, Mrs. Eugene Hopper and Mr. Charles Story. Mrs. C. E. Williamson read several beautiful poems composed by a member, Mrs. Henry Frisch.

Mrs. Rex Ranson was program chairman for this meeting. She presented Mrs. Wanda Hopper Lowe whose students gave a most interesting and enjoyable program of dance and song numbers.

Royal Oakes of Bluffs was the speaker for the day and gave a most enlightening and interesting talk on the raising of nuts in this climate. He brought with him over one hundred samples of nuts grown on his farm. His talk told about the shape of each particular tree and its value to the community. He stated that many nut trees grew to beautiful shapes and made excellent shade trees as well as ornamental trees. One of the brands he brought was the Hican—a cross between the hickory nut and the pecan. This nut has a shell that can be cracked with an ordinary nut cracker. Many of his black walnuts are being crossed and he had some that looked like an immense English walnut, but the color and the taste were entirely

## Waverly

WAVERLY — Frank Fuller of Grand Marais, Minnesota spent the weekend with Mr. and Mrs. L. E. Laugham and Mr. and Mrs. W. W. Tribble. It was at their camp they spent their vacation last summer.

Tuesday they had their Thanksgiving dinner while the brother, Mr. Martin, and sister, Mrs. Harris, were here Mr. and Mrs. Donald Woods and daughter, Donna, were also present Tuesday.

different. Mr. Oakes stated in closing that nut culture, breeding and the experimentation of growing nut trees was a most interesting and unusual profession in this part of Illinois.

Miss Lora Petefish was chairman of the hostesses for the day, assisted by Mrs. Raymond Paddock, Mrs. Cecil Patterson, Mrs. Louis Perbix, Mrs. D. L. Pierson, Mrs. Albert Potter, Mrs. Homer Potter, Mrs. Donald Ransdell, Mrs. Rex Ranson, Miss Rose Ranson, Mrs. Lester Reed, Mrs. George Reid, Mrs. Joe Reiser, Mrs. Everett Reynolds, Mrs. Gertrude Reynolds and Miss Beatrice Robinson.

The tea table was attractively decorated with a large platter of fresh fruit in the center, flanked on either side with tall red candles in small wicker baskets on a green base. The baskets were filled with straw flowers and twigs of holly. Lovely homemade cookies, mints and salted nuts and coffee were served. Mrs. Donald Ransdell poured.

## Response Slow But Steady For TB Seal Sale

On or near Nov. 16 Jacksonville and Morgan county residents received by mail their TB Christmas Seals from the Morgan County Tuberculosis and Public Health League.

Buying TB Christmas Seals is a habit with most families, many of whom would never send a Christmas greeting card or package without the familiar red, green and white seals affixed.

TB Christmas Seals, sold optionally through the mails each Christmas season, constitute the only type campaign made by the TB Association throughout the entire year. The funds derived from this sale must cover expenses and activities for a full 12 months.

Seventy-five percent of the non-seals received from the TB Seal Sale stays in Morgan County to support the Oak Lawn Sanatorium, located east of the city on state route 36, and its work.

Mrs. Verne Anderson of Jacksonville, chairman of the 1955 TB Seal Sale, reports the response slow but steady. More recipients shelve the envelope until a later date nearer the holiday. Many respond after the holiday as late as January and February. Last year Mrs. Anderson stated she received seal money in both June and July.

The amount of seals sent to local and county residents in most cases has been necessarily increased due to rising expenses and living costs. Open your envelope today and replace the seals with the corresponding amount of cash to help fight tuberculosis and afford proper treatment and care for those suffering with the disease in Morgan county.

## Snow Flurries Bring Coldest Snap Of Season

The Jacksonville area experienced the lowest temperature of the season early Monday morning, after it was raked by high winds Sunday, accompanied by snow flurries.

A reading of 8 degrees above zero was taken Monday morning at the W.L.D.S. transmitter station east of the city. This exceeded by several degrees the low readings any time in November.

Snow flurries Sunday afternoon cut down visibility but no accidents occurred on highways in this community. In some sections of the state the snow was accompanied by series of accidents.

Sangamon county authorities reported 23 injuries due to traffic accidents in the Springfield area. Most of the accidents were of minor nature.

## FROM INDIANA

Mr. and Mrs. Watson Maddox and family of Decatur, Ind., spent the Thanksgiving holidays visiting at the Walter Fearneyhough home. They were guests at a family dinner Thanksgiving evening at the home of Mr. and Mrs. Curtis Morris.

## Mound Woman's Country Club Has Open Meeting

The November session of the Mound Woman's Country Club was an open meeting. Members and guests were served dinner at the Lynville Christian Church.

Mrs. A. J. Stewart gave the invocation. After the meal and some announcements by the president, Mr. Henry Mason, a musical program was presented. Mary Stewart played several piano numbers and Mrs. Lloyd Gordon pleased the group with two selections on the church organ.

"Flora and Fauna of Alaska" was the subject of an address by Alvare S. McCarthy. The speaker told of the stages of soil evolution that are evident in Alaska and of the part that receding glaciers play in making soil. Her talk was illustrated by color slides which she had taken on a recent tour of Alaska.

An offering for the benefit of the club's room at Oaklawn Sanatorium was taken.

The next meeting will be Dec. 8 at 2 p.m. in the home of Mrs. Wilbur Williams, west of the city.

## Chemist Cooks Up Use For Waste Of Cottonseed Oil

MEMPHIS (AP) — A "natural-born" Memphis chemist has found some very useful jobs for an on-ery gum that used to be a headache to cottonseed oil refiners. This tar-like substance was the waste left after everything possible had been extracted from the oil. It used to be a thorough nuisance.

For years, big plants had to bury the waste to get it out of the way. It wouldn't float away, couldn't be burned—wouldn't even rot.

Now Joe Dabney, 45, whose chemical know-how is without benefit of formal training, has turned the gum into a roofing material that has withstood 5,000-degree heat and 80-below-zero cold.

Dabney, a stocky, black-haired man, has kept his new process secret and set up a firm to market it. The formula, he said, is known only to three other men.

He "cooked up" his first batch of the compound five years ago in an old lumberyard building at Jacksonville, Ill., with kettles, mixers and tanks.

His creation was a thick liquid which, when sprayed or mopped on and dried, would firmly bond aluminum foil. Using this as the basis for a light, fireproof roof, he sought a fire test from the Navy.

Although dubious, the Navy gauged a thermite bomb—hot enough to burn through tank armor plate.

The experimental roof came through in good shape. Inspectors found the wooden sheath underneath was only scorched.

Soon the one-time waste product was being used in roofing, insulation as "armor plate" to protect runways from jet blasts, and in interior fireproofing.

It was the Air Force that determined that Dabney's concoction, which he named "Aluma-Life," also shrugs off intense cold.

In the frigid Arctic, the intense cold was causing roofing materials and caulking compounds on Air Force buildings to crack and flake.

In a cold test chamber at the Air Force equipment laboratory at Wright-Patterson Air Force Base, Dabney says his compound passed every check.

The product is virtually acid proof. Dabney says it also resists corrosion, kills rust, smoothes oxidation, prevents paint peeling and has the ability to take the expansion or contraction of metals.

He has used it to make water-resistant various types of masonry buildings, swimming pools, wooden structures and boats.

His corporation, the Aluma-Life Co., Inc., turns out its product at a plant in New Market, N.J.

## GLACIER MOVES AHEAD

COLUMBUS, Ohio (AP) — The effects of the great glacial ages were reviewed when scientists reported finding a glacier still advancing or at least holding its own, unlike most of the world's great ice masses.

The Ohio State University team said solid ice on the glacier moved about half an inch per day at the surface. The team reported after an expedition which studied part of the great Greenland ice cap. A final report is due later.

Dr. Richard P. Goldthwait, OSU geologist who led the team, said advance of the ice edge is the result of increased snowfall due to from encroachment of the sea in warmer weather which results nearby areas.

The group camped about 40 miles north of Thule Air Force Base in northwest Greenland, about 1,000 miles from the North Pole. The study was part of a program sponsored by the snow, ice and permafrost division of the U.S. Army Engineers.

## City's Philathea Classes Hold Annual Banquet

The annual city-wide banquet of the Philathea Class of Jacksonville was held recently at the First Baptist Church.

Members of Philathea classes, the teachers, and pastors of Central Christian, Centenary Methodist, Grace Methodist, First Presbyterian and First Baptist churches were present.

Mrs. Nellie Phillips gave the invocation.

After the meal, which was served by the couples' class of the First Baptist Church, a group of vocal selections was given by Miss Sylvia Anderson, soprano soloist, accompanied by Miss Linda Smith.

Both are MacMurray College students.

Alvaree S. McCarthy presented slides and a talk about her recent trip to Alaska. She told something of the evidences of soil evolution seen in Alaska and of the part the receding glaciers play in making soil.

The evening closed with the more than 70 present singing "Blest Be The Ties That Bind."

## ROODHOUSE

ROODHOUSE—Mrs. Gale Smock entertained Friday afternoon complimenting her daughter, Danna Smock, whose 8th birthday anniversary occurred Nov. 19.

## Wonderful New Ride with a "Sense of Direction"

Over the years, Buick has always had a great ride. But each year, Buick engineers find new ways to better it. And in the 1956 Buick comes a ride beyond anything that has gone before—the sweetest ride in Buick history.

We could tell you the why of it...

About a brilliantly engineered new chassis of extra brawn and heft and precision balance...

About new direct-action, deep-oil shock absorbers that snub jars and jolts with full, firm authority—and add new levelness to the car's all-coil springing...

About new V-bracing and new housing rigidity that bulwark the full-length torque-tube drive—bringing new swerve-free steadiness...

Even about a whole new magic of angles and linkage in the front-end geometry to impart a track-true "sense of direction" to the front wheels.

But that's just a telling of it. Only in the driver's seat can you get the feel of it. Only there, too, can you sense the

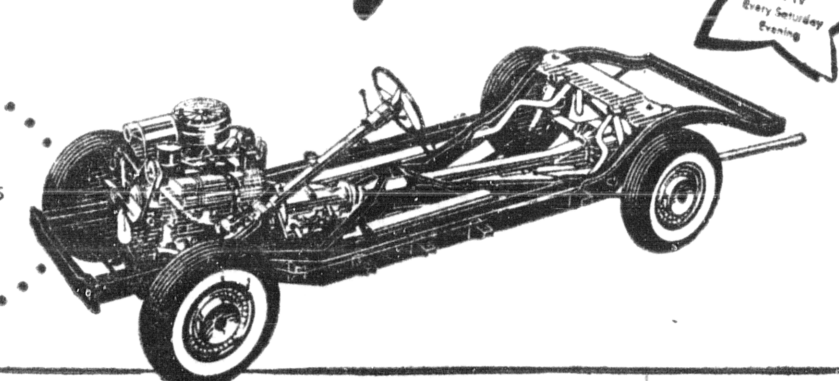

mighty sweep of Buick's great new 322-cubic-inch V8 engine, now stepped up to an all-time high in power and compression.

And only there can you really know the thrilling double-action take-off of today's new Variable Pitch Dynaflo®—the spirited action that gives you instant getaway response at merely part throttle, plus utter smoothness through every inch of travel.

Come in for a visit, this week—just to sample at first-hand the sizzle and thrill and ride sweetness in the best Buick yet.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

**Brawny Reason for the Best Ride Yet**  
is Buick's massive new chassis—and its brilliant engineering is shared by no other car in the world.

It's the '56 Buick—

## Receive Painting In Memory Of Former President

The Toastmaster's Club met Wednesday evening. Opening the program, toastmaster Warren Clune introduced Paul Barnes, who recounted the variety of answers received to the question, "How much will it cost to fix my car?"

Barnes illustrated the differences in character one may meet on an average day.

Rex Potts, Lynden Heaton, Travis Budlong and James Rafferty were asked by Howard Brown to make impromptu talks on the significance of Thanksgiving.

Homer Wood, in a talk titled "The Origin of Santa Claus," related that the friendly, white bearded gent was created in 345 A.D. by Bishop Nicholas Wood also explained the changes and developments in the Santa Claus tradition which have taken place over the centuries.

General critic James Rafferty appointed George Delaney and John Pruitt as speech evaluators.

Mrs. Mae Schultz presented to the club a framed water color painting by past president Dallas Schultz. The painting is to serve as an attendance award in memory of Dallas Schultz.

THE VIGIL—Janice Hullinger watches over her ailing steer, "Shorty, II," just before the opening of the International Livestock Exposition in Chicago. The black Aberdeen Angus, considered one of the favorites for grand champion honors at the show, came down with pneumonia and was a doubtful contestant for this year's prize. Last year, Janice, a 17-year-old Manly, Iowa, farm girl, won the rich grand champion prize with her original "Shorty."

Elizabeth Dalton, Winchester, Weds Pike Minister

PITTSFIELD—Miss Elizabeth Dalton, daughter of Mr. and Mrs. Roy Dalton of Winchester and the Rev. Charles Chapman of the Detroit, Florence and Milton Methodist churches were married Sunday afternoon November 20 at the church in Florence. The Rev. Dale Pitcher of Pittsfield united the couple in a double ring ceremony in the presence of a large group of relatives and friends. The church was attractively decorated with white gladioli, ferns, palms and candelabra forming a background for the ceremony.

Mrs. Dewey Stephenson of Detroit played nuptial music and the traditional wedding marches and accompanied Everett Pennoch who sang "I Love You Truly." The bride, lovely in a gown of white lace and flounces of net, was given away by her father. She wore a shoulder length veil and carried a white Bible topped with an orchid.

Mrs. Gladys Huff of Winchester served as matron of honor. She was wearing in pale blue lace and net. Serving as best man was Bill Christenson of Detroit, with Lowell Sparks and James Wade serving as ushers.

A reception was held in the town hall at Detroit following the wedding, with several hundred guests being served cake, punch and mints with the serving in charge of Mrs. Ethel Phillips, Mrs. Joan Ellis and Dona Raft, all of Detroit. Rev. Chapman has served the three churches for the past three years. He and his bride will make their home in the Methodist parsonage at Detroit.

WILD BILL HICKOK

Hearing a shot in the Alamo saloon, Marshal Hickok entered to find Phil Coe, gun in hand, waiting for him.

By Russ Winterbotham and Ralph Lane

Coe fired and Hickok went into action with both six-guns. As the smoke cleared, Bill heard the creak of the swinging door behind him.

By Russ Winterbotham and Ralph Lane

Whirling, he saw a man holding a pistol and he fired again. The man was his own deputy, Jim Williams.

By Russ Winterbotham and Ralph Lane

Saddened by the fatal accident, Wild Bill went to New York City in 1873.

## Golfer Patty Berg Is Strong Candidate For Woman Athlete Award

### Babe Zaharias Is Isolated From All In Cancer X-Rays

GALVESTON, Tex. (P) — Babe Zaharias was isolated from all except intimate friends Monday as a week-long series of tests was started to determine how the famous golfer is doing in her fight with cancer.

She was permitted no telephone calls. Doctors at John Sealy Hospital said there was nothing yet to report on her progress.

It was the third time for the woman athlete to be hospitalized with the dread disease. The other times she underwent operations at the hospital and was released after doctors said her condition was improved.

Mrs. Zaharias, 42, returned to the hospital from Tampa on the advice of her physicians, who said she may have been overdoing it recently in her golf practices.

She said X-rays were taken after pain in her right hip increased following her latest operation two months ago.

Her doctors said they hope "the cancer has not spread from the previous designated region" in the lower part of her back.

### BETZEL WILL MANAGE TORONTO NEXT YEAR

COLUMBUS, Ohio (P) — Bruno Betzel, veteran minor league manager and coach, Monday was named manager of Toronto of the International League. He succeeds Luke Sewell who took over the managing job at Seattle in the Pacific Coast League. Betzel served as a coach under Sewell in the last two years.

Frankie Ryff, 23-year-old boxer, is the son of a New York City subway conductor.

## Philadelphia Warriors Granted Draft Rights To Wilt Chamberlain

BY OWEN CRUMB

SYRACUSE, N.Y. (P) — The Philadelphia Warriors of the National Basketball Assn. have been granted draft rights to schoolboy basketball sensation Wilt (The Slim) Chamberlain four years in advance, it was disclosed Monday.

An apparently unprecedented vote by NBA officials on rights to Chamberlain was disclosed Monday by Joe Lapchick, coach of the New York Knickerbockers, and confirmed by Dan Bionese, president of the Syracuse Nationals.

In New York, a spokesman for Maurice Podoloff, president of the NBA, said the action took place at the annual meeting of the organization last spring.

"I don't recall that Chamberlain's name was mentioned," the spokesman added, "but the rule dealt with all high school players who might be regarded as potential professional stars who leave their home cities to go to college in a district where there is no pro team."

"The club must announce when the player starts his college career that it intends to exercise its territorial rights privilege and must take the player even if he doesn't develop and the player must go to a college outside the territory of any club in the league."

Lapchick called the seven-foot Chamberlain, "the greatest ball player in the game today." He added, "Everybody but my boss (Ned Irish) let him go to Gottlieb."

Ed Gottlieb is president of the Warriors.

"The league created a monster

when it let Chamberlain go to Philadelphia. It was a grave error." Lapchick said he feared that letting Chamberlain go to the Warriors would give the Philadelphia squad a huge advantage over other NBA teams and result in a loss of fan interest in the league.

Lapchick made the disclosure at a luncheon sponsored by the Syracuse Nationals for newspaper and radio men.

Chamberlain scored 2,252 points in three years of basketball for Overbrook High School in Philadelphia. He is now a freshman at the University of Kansas, a Big Seven basketball player.

On Nov. 18 he played with the Kansas freshman against the varsity, getting 42 points on what he called an off night. Besides 16 field goals, he dropped in 10 free throws and snatched 24 rebounds.

The freshmen beat the varsity, 81-71. Lapchick asked Bionese why the officials had permitted the Warriors to draft Chamberlain in advance. Bionese replied:

"Chamberlain is a resident of Philadelphia so Gottlieb had a territorial right to him regardless of where he went to college.

"And I think it might be as good for Gottlieb to have him go to Kansas than to be in Philadelphia competing against him at the gate on some college team."

Neither Lapchick nor Bionese disclosed when league officials met on the matter. But NBA followers said they couldn't remember any time when a team was permitted to draft a player so far in advance and outside the normal draft regulations.

## Monte Irvin Back In Major Leagues With Chicago Cubs

COLUMBUS, Ohio (P) — Monte Irvin, former New York Giant star who hit .352 after dropping down to Minneapolis, returned to the big show with the Chicago Cubs Monday among 10 minor league players selected for \$115,000 in the highest major league draft since 1945.

Of the 10 selected — 3 fewer than last year — 8 were pitchers, pointing up the talent shortage in the majors. The others to move up were first baseman Bob Boyd and Irvin, Boyd, who hit .309 at Houston in the Texas League, was drafted by Baltimore off the St. Louis Cards' farm at Rochester of the International League.

The Cubs were the only double drafters. In addition to the 35-year-old Irvin, they took Vito Valentini, a right-handed pitcher off the Toronto list. Vito, who was up with the Chicago White Sox briefly, had a 9-15 record at Charleston in the American Assn. before his contract was shifted to Toronto.

Only 9 of the 16 major league teams drafted. Among the seven who passed were the world champion Dodgers, who had last choice, and the Yanks, American League pennant winners. The teams draft in reverse order to their finishing positions.

Irvin fits into the Cubs' need for more hitting power in the outfield. Although Monte was sent down by the Giants, he slammed American Assn. pitching for 21 doubles and 14 home runs in 75 games.

### CUBS GET LANDRITH, REDLEGS GAIN JEFF COAT

COLUMBUS, Ohio (P) — The Cincinnati Reds traded catcher Hobie Landrith to the Chicago Cubs Monday night for pitcher Hal Jeffcoat in a straight player swap. Gabe Paul, Cincinnati general manager, said no cash was involved.

Landrith, 25, batted .253 for Cincinnati last season. The left-handed batter has been in the Redlegs' organization for five years.

Jeffcoat, recently turned 31, is a former outfielder who was converted to a pitcher with the Cubs. The right-hander had an 8-6 record last season and a 2.94 earned run average.

Bowden Wyatt, Tennessee — The way our boys played under pressure was a wonderful thing to see. Majors stood out again, and Cruze was terrific.

Old Professor — Well, gentlemen, our time is up. The young ladies will give you your diplomas as you pass out. It's been a pleasure working with you, and I hope you'll be back for a little post-graduate work next fall. Good day."

Harry Gilmer still holds Alabama's passing record. He tossed 69 passes for completions for 960 yards in 1946.

## SPORTS TRAIL

By WHITNEY MARTIN

NEW YORK (P) — The Old Professor was flanked by two gorgeous dolls in rather brief costumes, each carrying a beribboned bundle. The Monday morning class of football coaches perked up. It must be a give-away program.

Old Professor — I know what you are thinking, gentlemen. These are diplomas, and I am happy to say you earned them. They will give you something to help you remember this time season.

Jess Hill, Southern California — I already have something, professor. The team gave themselves and me something to remember and live with for the rest of our lives. I'd have to name every man to give credit to those who did a great job here.

Terry Brennan, Notre Dame — How did those Trojans ever lose a game? When Jim Confratto unloaded that pass to Jon Arnot for 64 yards and a touchdown when it was 21-20, USC, well, that was the turning point.

Old Professor — That gave you a bad turn, I take it. Mr. Woodard, were you ever caught short?

Woody Woodard, Southern Methodist — Yes, sir. We just got too short handed in the last minutes of the game. I thought the turning point came when we got that 15-yard penalty for roughing during the TCU drive for their second touchdown.

Abe Martin, Texas Christian — My kids made a great comeback. Boys like that make a good coach out of you. It's wonderful to be conference champions, but those red-shirted Mustangs kept running in front of my eyes.

Old Professor — Mr. Guepe, is there such a thing as too much success?

Art Guepe, Vanderbilt — Yes, sir. Our defense was too good on the ground. So Tennessee went to the air and beat us. Johnny Majors passed extremely well and Buddy Cruze's receiving made the attack effective.

Bowden Wyatt, Tennessee — The way our boys played under pressure was a wonderful thing to see. Majors stood out again, and Cruze was terrific.

Old Professor — Well, gentlemen, our time is up. The young ladies will give you your diplomas as you pass out. It's been a pleasure working with you, and I hope you'll be back for a little post-graduate work next fall. Good day."

## O'Malley Claims Minor League Can Benefit From TV

BROOKLYN (P) — On the eve of the minor league baseball meetings, President Walter F. O'Malley of the Brooklyn Dodgers Monday revealed that the major league clubs have given serious consideration to a "game of the week" television broadcast which would benefit the minors.

O'Malley said the plan, if put into effect, would bring in 1 1/2 million dollars to the minors and an equal amount to the major league clubs involved. Action by the minor league convention this week would be required if the program is to begin in 1957, O'Malley said.

### CUBS GET LANDRITH, REDLEGS GAIN JEFF COAT

COLUMBUS, Ohio (P) — The Cincinnati Reds traded catcher Hobie Landrith to the Chicago Cubs Monday night for pitcher Hal Jeffcoat in a straight player swap.

Gabe Paul, Cincinnati general manager, said no cash was involved.

Landrith, 25, batted .253 for Cincinnati last season. The left-handed batter has been in the Redlegs' organization for five years.

Jeffcoat, recently turned 31, is a former outfielder who was converted to a pitcher with the Cubs. The right-hander had an 8-6 record last season and a 2.94 earned run average.

Bowden Wyatt, Tennessee — The way our boys played under pressure was a wonderful thing to see. Majors stood out again, and Cruze was terrific.

Old Professor — Well, gentlemen, our time is up. The young ladies will give you your diplomas as you pass out. It's been a pleasure working with you, and I hope you'll be back for a little post-graduate work next fall. Good day."

## Crimsons And Rockets Open 1955-56 Season; Tigers After 3rd Win

Coach John Chapman's J. H. S. Crimsons open their 1955-56 basketball season as they entertain the Taylorville Tornadoes in a twin bill. The preliminary game will get underway around 6:30 and the varsity game at 8 o'clock.

This will be the first game of the season for both squads and Coach Chapman in his 7th year at the local school has regards that this year's team will better their 14-12 record last year. Coach Chapman stated the squad has picked up his system quicker than any team he's ever had. They look very good and work well together as a unit.

The 7 returning lettermen are: Jim Reynolds, Danny Warcup, Bill Jordan, Howard Johnson, Larry Scott, Tom Coates and Jack Fairfield.

Larry Scott is still wearing the cast from a football injury which will handicap his shooting ability to some extent. One of the lettermen will test his injury in the preliminary game. Danny Warcup has a cast on his hand which will prevent him a starting berth on the varsity for awhile.

The starting lineup for tonight is a tossup between 8 players. Those showing the most promise so far are seniors: Bill Jordan, Howard Johnson, Larry Scott, Tom Coates, Bill Nunn, Jack Fairfield, Jim Reynolds and junior Gary Little.

Coach Bob Lyons of Taylorville has 4 lettermen back: Bruce Meriwether, 6 foot guard, netted 15 tallies against JHS last year and is expected to be the main clog in the Tornado attack. George Trojak at center, Bill Crews a forward and Ty Corso round out their lineup.

L.S.D. Visits Petersburg With impressive victories over Waverly and Roodhouse Coach Jim Spink's I.S.D. Tigers go after their third win tonight as they travel to Petersburg.

The Tiger lineup will be Zachariasen, Schultz at the forward posts, Richey at center and Mehring and Duncan at guards.

Routt At Chapin Coach Larry Zitkus and his Routt Rockets open their 1955-56 season tonight at Chapin. This will be a PMSC conference tilt and Routt will be out to better their 4th place standing in the conference last year.

The Rockets took first in the PMSC tourney last season. They also won the regional to advance to the sectional where they lost to Winchester. Their record for the '54-55 season was 18 wins and 13 losses counting tournament play. Routt's five returning lettermen are Jim DeVore, Jim Cosgriff, Jim Sargent, Jack Baptiste and Jack Long.

Seasons tickets for the Rockets games are on sale at Don and Vic's Sporting Goods store.

## COLUMBUS JETS TURN DOWN BID TO REJOIN ASSN.

COLUMBUS, Ohio (P) — The Columbus Jets Monday turned down a bid by the American Assn. for 33-13 Auburn beat Michigan State 6-0 in the Orange Bowl at Miami Jan. 1, 1938.

Auburn defeated Alabama Saturday 26-0 and was runnerup to Mississippi in SEC standings. It was 10th in last week's Associated Press poll.

Vanderbilt, making its first bowl appearance, lost Saturday 20-14 to Tennessee and finished fifth in the SEC behind Georgia Tech.

## Hopalong Cassidy Is Picked By Detroit In NFL Players Draft Mon.

By RALPH BERNSTEIN PHILADELPHIA (P) — The Pittsburgh Steelers passed over all the nation's more highly publicized college football players to select a 25-year-old defensive quarterback as their first choice in the NFL players draft Monday.

Coach Red Stader unmistakably named Earl Morrall, the brilliant quarterback in Michigan State's multiple offense.

Detroit quickly picked Howard (Hopalong) Cassidy, rugged running halfback from Ohio State's Big Ten champions.

Kiesling defended his choice of Glick, a native of La Porte, Colo., who he said was recommended highly by all who watched the Skyline quarterback in action.

Glick gained 621 yards on 144 carries, caught 10 passes for 153 yards and completed 14 of 43 passes for 206 yards and two touchdowns during the past season. He returned 13 punts for 136 yards and intercepted five passes in leading the Aggies to the 1955 Skyline conference title.

Glick, 6-1 and 190 pounds, is married and the father of two children. San Francisco was overjoyed with Morrall, who in addition to accounting for 1,047 yards on 115 plays, tops the nation's punters with a 42.9 average. Morrall can operate from the single wing, and the standard or split T.

Detroit may have to wait for Hopalong Cassidy, since the Ohio State ace reportedly is headed for jet pilot training in the Air Force after he graduates in June. Cassidy scored 15 touchdowns for the Buckeyes this season and gained 958 yards on the ground in 168 carries.

In all, the pros drafted 37 players from 25 colleges and universities.

## Deacon Jones Of Iowa Takes NCAA Cross Country Run

By ROBERT E. VOGES EAST LANSING, Mich. (P) — Charles (Deacon) Jones of Iowa finished like a sprinter Monday to win the 17th annual NCAA cross country run in 19:57.4.

Michigan State placed 4 men among the first 11 to take the team title. Kansas University was runnerup in the team race and Notre Dame and New York University tied for third.

The fight for individual honors was a two-man duel between Jones and Henry Kennedy of Michigan State. Both are sophomores.

Kennedy won the IC4A meet, barely beat out Jones to take the Big Ten title and had been unbeaten in dual meet competition. He also holds the course record at Michigan State, having covered the four mile distance in 19:28.3.

Jones and Kennedy, eyeing each other as they ran, were content to jog for a while side by side behind the early pacesetters.

Kennedy took lead of the pack at the three-mile mark but Jones stayed right at his shoulder. Jones in front of the finish line. Jones out on a terrific kick and won by a yard. Kennedy was timed in a tenth of a second behind with 19:57.5.

Butler 12-degree temperature and a piercing wind with gusts up to 37 miles per hour, plus a glaze of ice and a scattering of snow underfoot, killed any hopes of bettering the NCAA record of 19:36.7.

St. Joseph's College of Philadelphia was fifth in the team competition. Indiana University placed sixth, Miami of Ohio seventh, Western Michigan College eighth and Oberlin College ninth.

New York Bond Market

NEW YORK (AP)—Selected industrial convertibles advanced to tilt the bond market higher Monday in active trading.

U.S. Treasury securities were off 1-32 and 2-32 in the over-the-counter market. Long-range governments were softer than intermediate issues.

Corporate volume mounted to four million dollars par value on the Big Board from \$2,930,000 Friday.

New York Stock Market

NEW YORK (AP)—Prices faltered on profit taking and the stock market generally declined Monday.

Early in the session the market seemed determined to reach the historic high set Sept. 23, the day before President Eisenhower's heart attack, but the rise spent itself by midday.

The pattern turned irregular and then definitely lower with prices around the worst for the day at the close. Losses ranged to about \$3 on pivotal issues while most gains were from fractions to \$1.

The Associated Press average of 30 stocks declined \$1.40 to \$179.90. The industrial component was down \$1.70, the rails \$2.10 and the utilities 10 cents.

Trading volume totaled 2,460,000 shares compared with 2,190,000 Friday.

The price trend was mixed on the American Stock Exchange in active trading totaling 1,050,000 shares.

CORN LEADS GRAINS IN PRICE RISE

By WILLIAM FERRIS  
CHICAGO (AP)—Most grains ended higher Monday, paced on the upward path by corn. The yellow cereal was in demand because of extreme low temperatures throughout the livestock feeding belt.

Soybeans maintained a firm tone during the session. In the early trade they were alone in showing gains, corn lagging until it became apparent there was a good demand for cash corn.

Wheat sank early and did not get back above the previous close until late in the day, setting new highs in the final minutes. Oats lagged on the prospect of heavy deliveries of cash oats on December contracts.

Wheat closed 1/4-3/4 higher, corn 1 1/2-2 1/4 higher, oats 1/2-1/4 lower, rye unchanged to 3/4 lower, soybeans 1 to 1 1/4 higher and lard 18 to 25 cents a hundred pounds lower.

In addition to stimulating demand for corn, the cold weather was expected to help improve the situation in soybean meal. Meal was steady at \$46.50 a ton. This was a help to soybeans.

Soybeans pretty much ignored a report credited to the American Soybean Assn. saying China had gotten the jump on the United States in exporting soybeans to Japan.

Israel bought 2,100,000 bushels of hard wheat and Brazil asked for offers on 9,325,000 bushels. Greece was in the market for 2,240,000 bushels and exporters hoped Israel would be back in the market later this week.

CHICAGO LIVESTOCK MARKET REPORT

CHICAGO (AP)—Butcher hogs sold steady to 25 cents higher while sows held steady Monday. There was a broad demand for the 22,000 salable arrivals. Shippers took 10,000 head.

For the fourth straight session the top remained at \$12.25, paid Monday for several hundred head. Most 180 to 220-pound butchers brought \$11.25 to \$12.00, 230 to 250-pounders \$10.75 to \$11.50 and 260 to 320-pounders \$10.75 to \$11.50. Sows sold from \$8.75 to \$10.00.

In the cattle session, where salable receipts totaled 22,000, steady to 30 cents higher prices were paid for steers and heifers. Prime steers topped at \$26.00 and prime heifers at \$22.75.

Most choice and prime steers were taken at \$19.50 to \$24.00 with comparable heifers at \$19.50 to \$22.00. Cows held steady at \$9.25 to \$11.50 for utility and commercial and \$8.00 to \$10.00 for canners and cutters. Vealers were steady to strong at \$23.00 down.

Salable sheep receipts totaled 4,500. Lambs declined about 50 cents with most good to prime woolled types going at \$17.50 to \$19.00. A few lots of choice and prime, weighing less than 100 pounds, commanded \$19.25.

PATTERSON

PATTERSON — Mrs. Mardell Bain visited Friday in Jacksonville with her mother, Mrs. Charles Goacher of Roodhouse, who is a patient at Our Saviour's hospital since last Monday, having suffered a heart attack early that morning.

Thanksgiving dinner guests of Mr. and Mrs. Everett Taylor were Mr. and Mrs. George Ticknor of Jacksonville and Mr. and Mrs. Glenn Taylor and daughter, Gail, of Roodhouse.

Dinner guests of Mr. and Mrs. Curtis Glibler Thanksgiving day were Mr. and Mrs. Emory Smith of White Hall, Mr. and Mrs. Wayne Colby of Springfield and Mr. and Mrs. Fletcher Smith and daughter, Debbie.

Hade Ralston of White Hall was a Thursday afternoon and supper guest of Mr. and Mrs. Ewell Steelman, Mr. and Mrs. Cecil Ralston of White Hall called in the evening.

GO ON SALE THURSDAY

SPRINGFIELD, Ill. (AP)—Illinois motorists may buy their 1956 auto license plates over the counter starting Thursday.

Secretary of State Charles P. Carpenter announced Monday that Thursday will also be the start of mailing of plates asked for during the reassignment period.

Over-the-counter sales will be in Springfield and Chicago offices of the secretary.

GUESTS FROM EAST

Mr. and Mrs. Roy Rowlings of Providence, R. I. visited Monday morning with Miss Ida Deere, 333 South Diamond street and other relatives in the vicinity.

Seek Cab Driver As Suspect In Canton Girl's Rape - Slaying

(Continued From Page One)

Janice was the daughter of Mr. and Mrs. Dean May. May is a salesman for a soft drink wholesaler. His wife is a nurse at Graham Hospital. Their other two children are Jimmy, 12, and Willard, 14.

The search for Miller was centered in Indiana and Kentucky after Chief Lindsey learned that the cab driver held a bus ticket from Peoria to Louisville, and that a wife.

A man seized by Indianapolis police at the bus station there Monday was released after it was found that he was not Miller.

Lindsey said Miller was believed to have a wife and child in Louisville.

Leonard Hall Predicts Ike Will Run If Able

(Continued From Page One)

"I did not get anything directly or indirectly," Hall replied. "He didn't say yes; he didn't say no."

But he reiterated he was very much encouraged by the meeting.

His encouragement wasn't based alone on the President's appearance, he said.

"I also feel encouraged because of his attitude and interest in the issues of the day," Hall said. "There is a real, continuing interest in what is going on, and it goes beyond today or tomorrow."

He said they discussed foreign affairs and the farm issue.

The President indicated "awareness" of the farm issue as well as "concern," he said.

In essence, the farm issue has arisen because farm prices and farm income have been dropping while other elements of the population are enjoying gains. The Democrats are doing their best to make political hay from the situation.

Truman Denies Calling Nixon Profane Name

LOS ANGELES (AP)—Former President Harry S. Truman, who has made it abundantly clear he is not exactly fond of Vice President Richard Nixon, nevertheless denied Monday that he had called Nixon a profane name.

Asked in a news conference how the profanity business came about, Truman said:

"I can't understand how it came about. My secretary, Mr. (David) Lloyd, was with me and he didn't hear it. No such statement was ever made."

The Los Angeles Times said that upon arriving from Seattle last night, Truman was asked what he thought about Nixon being the 1956 Republican presidential candidate and replied:

"I don't like the -- -- -- and I don't care who knows it." The Los Angeles Examiner quoted Truman as saying, "I don't even want to discuss that -- -- --. Don't even mention his name to me."

An indication of Truman's feeling toward Nixon came in Monday's news conference when a reporter asked about his remark in Seattle that Nixon had called him a traitor.

"Nixon called every Democrat a traitor and I was head of the Democratic party at the time," Truman said. He said Nixon made the "traitor" remark in a speech in California in 1952.

Finally someone repeated the question of what Truman would think of Nixon as a GOP candidate next year. He set his lips firmly and snapped: "No comment!" Then he laughed and the roomful of newsmen laughed with him.

REDS HEAP GREETINGS ON TITO OF YUGOSLAVIA

LONDON (AP)—The Communist world heaped greetings Monday on Marshal Tito of Yugoslavia — the man they once called a "renegade traitor."

Red China's rulers cabled greetings to commemorate Tuesday's 10th anniversary of the Communist republic.

The moves reflected increasing animosity between the two big Communist states and Tito's regime which was expelled from the Cominform in 1948 for refusing to bow to the Kremlin line.

## GHOST VOTE TABULATED

**BALTIMORE P—**Editors of The  
News-Letter, Johns Hopkins Uni-  
versity student weekly, got their  
point across.

They contended freshmen didn't  
know enough about the candidates  
to elect a class president only five  
weeks after entering the university.  
Then they backed up their argu-  
ment by adding Bob Clarke to the  
list of candidates.

Bob Clarke, who exists only in the  
imagination of the editors, drew  
8 per cent of the vote.

**ALARM WITHOUT WORD**  
**GRAND HAVEN, Mich. (P)—**A 2-  
year-old who hadn't learned to say  
"fire" woke his father in time for  
him to rescue members of the fam-  
ily from their burning home.

Douglas Boyer kept screaming  
"hotty" until he woke his father,  
Walter, 26. An overheated furnace  
had set the house afire.

The Bahai religion originated in  
Persia early in the 19th century and  
spread through Europe to the United  
States and Canada.

**SOUTHERN BELLE—"Miss**  
Hospitality" of 1955 is Jo Anne  
Bell, recently titled by the  
Pan American Hotel and Res-  
taurant Association in Miami,  
Fla. She's from Cypress Gar-  
dens, Fla.

### HUGE CANDY CANE FALLS FROM POLE; IT ISN'T REAL!

If it had been real, someone might have had a tummy ache!

But the seven foot candy cane that toppled into the 200 block on East State street from a light pole was only made of tin, or wood, or something not a bit like peppermint stick.

The big candy cane, one of many that were erected last week as part of Christmas decorations, crashed from its lofty moorings at 12:30 a.m. Sunday, probably loosened by a strong wind.

Passers noticed the decoration down in the street and notified the fire department. The candy cane was taken to the police station for the remainder of the night. Later it was hoisted back into position where it reminds good little boys and girls of the confections they will get Christmas morning.

### William Schone Of Arenzville Dies Monday

## Filling Of Big Tank Ups Water Pressure In West Side Homes

Water pressure in the west section of the city has jumped from 20 to 50½ pounds since the filling of the new 1,500,000 gallon tank in Veterans Park, the council was told last night by Alderman Harris Rowe of the water committee and N. J. Butler, superintendent of public utilities.

"Pressure in some areas has risen 30 pounds since the big tank was placed in service," Butler stated. "We expect to continue making adjustments until there is a uniform pressure throughout the city of about 45 pounds."

Pull use of the huge tank was delayed for a considerable length of time when it was found necessary to build a booster station to pump water into the tank, and provide other auxiliary equipment. The big tank is now being used in conjunction with the 500,000 gallon tank also in Veterans Park. The 100,000 gallon standpipe there will be dismantled.

**Wheel Tax Deadline Dec. 1**  
Alderman Hall of the finance committee announced that 80 per cent of the car and truck owners of the city have obtained their new wheel tax stickers. He again called attention to the Dec. 1 deadline, after which the police department will be instructed to make arrests.

The finance chairman introduced a resolution to transfer \$10,000 from the motor vehicle license fee fund to the general fund, for the purpose of paying the salaries of policemen in the amount of 35 per cent, and paying the costs of street or alley repairs and improvements in the amount of 65 per cent. The resolution passed after motions by Aldermen Hall and Fitzsimmons.

Hazards arising from several abandoned and tumble down houses were discussed by Alderman DeFries of the health committee, after which the council decided to take action. The city attorney was instructed in a resolution adopted on motion of Alderman DeFries, seconded by Alderman Fitzsimmons, to take legal steps to eliminate two abandoned structures, on Lorton street and on Alley A.

**Buy Flusher And Truck**  
The highway committee through its chairman, Alderman Kelly, recommended the purchase of an Aetna street flusher at a cost of \$3442, and a three ton Ford truck at a cost of \$3792.13, as the result of bids which were received and evaluated some time ago. Members of the committee made a trip to Macomb last week to see a street

## Workshop Destroyed In Fire At Winchester

WINCHESTER—The Winchester fire department was called to the residence of Paul Stehman about 11:30 Monday morning, due to a fire in a workshop which adjoined the garage. The fire was apparently caused by an overheated oil stove and the workshop building and contents, consisting of a number of power and smaller tools, were destroyed before the fire was extinguished.

## Alexander Woman Redeems 'Gift' On Birth Of Son

When Mrs. Constance Bergschneider of Alexander won a "surprise gift" of five days free general hospital care from Our Saviour's Hospital at an auction held by the Catholic Daughters of America in February, 1955, little did she think she would be taking advantage of such a prize.

However, November 16 Mrs. Bergschneider used the occasion of her latest arrival, a bouncing 8 pound 12 ounce boy named Steven Verne, to collect the gift.

This week Mrs. Bergschneider happily related the story. She enjoyed a chuckle with friends and hospital personnel as they dropped in to congratulate her on her doubly good fortune. She commented, "I guess I feel like those women who have their first baby after New Year's."

The certificate which Mrs. Bergschneider presented in payment was one of two given as "surprise gifts" at the auction. This is the first gift to be redeemed.
